

GUIDE to Reports and Activities grades

IMPORTANT: The points you have obtained in the “Internal Activities” (see below) will be **added** to the grade you obtained in the Report.

File “Internal Activities” contains all the numbers from Moodle, as downloaded from the sites. For some activities, the original grade (grey columns) has been re-evaluated to 10 points (e.g. participation to databases or wiki were in the form “yes or not” and have been converted in scores).

The sum of the scores is in the third last column. The percentage of the max score is in the second last column. Points were assigned depending on this value: >60% 1pt; >70% 2pts; >80% 3pts; >90% 4 pts.

PLEASE CHECK THE TABLE FOR CORRECTNESS

File “**Reports Grades**” contains your grade for Reports. The yellow column is the grade (g/30) resulting by adding 5 to the sum of the points assigned for the various criteria used in evaluation (point column 11), as detailed in the third file:

File “**Details reports evaluation**” includes all the specific scores for the different criteria used, for each Report sessions.
